## **RESEARCH PROFILE:**

I am actively involved in evolution of new techniques and research in urethral surgery .I along with my wife were one of the first to set up a animal lab for training surgeons in laparoscopic surgery in India .We innovated the concept of performing DVIU with injection of cultured buccal cells. Currently we are involved in research of advancing urethral surgery.

## **CLINICAL PROFILE:**

### **Innovations:**

1 Contralateral Ureterolithotomy 2000 Video AUA, EAU

2 A new technique to repair urethro-perineal fistula after abdomino-perineal resection for rectal cancer 2004 AUA Video

3 Pan Urethral stricture repair 2000 AUA,EAU

**Kulkarni Technique** of pan urethroplasty is now the standard of care around the world and is published in Hinman's Atlas and UCNA2017

4 Laparoscopic Omentoplasty to support anastomosis after complex pelvic fracture urethral trauma BJUI 2015

5 A Novel technique of two stage repair for failed hypospadias repair IJU 2017

6 Oral Mucosa Flap urethroplasty for bulbar urethral necrosis after pelvic fracture urethral defect surgery: Complex urethroplasty

7 Endoscopic classification of urethral strictures (accepted for publication)

8 Use of methylene blue spongiography in short near obliterative bulbar strictures.

### AUA:

#### 2000:

- A new technique of Urethroplasty for BXO

#### 2002:

- A new technique of Urethroplasty for Watering Can Perineum

#### 2005:

- A new technique of full length urethroplasty with SIS

#### 2006:

- A new technique to repair urethro-perineal fistula following abdomino perineal resection of the rectum

#### 2007:

- Penile invagination technique in full length buccal mucosa urethroplasty.
- Contralateral ureterolithotomy.
- Penile invagination technique in full length buccal mucosa urethroplasty
- Stenson's duct stenosis - a rare complication of buccal mucosal harvest.
- Dorsal onlay small intestinal submucosa urethroplasty: our experience.
- A new technique to repair urethro perineal fistula after abdominoperineal resection of rectum.

- Dorsal onlay buccal mucosal urethroplasty for post turp urethral strictures.
- Dorsal onlay buccal mucosa full length urethroplasty – a single center experience.

2009:

- Anastomotic urethroplasty for posterior urethral trauma, surgical steps and results in a multicenter international study with 200 patients

2010:

- One-sided anterior urethroplasty: a new dorsal onlay graft technique

2011:

- Reconstruction of complex obliterative anterior urethral strictures via single stage overlapping dorsal ventral double oral mucosalgraft technique
- Transpubic double anastomotic urethroplasty for exclusion of the prostatic urethra due to trauma.
- 2013:
- Management of Panurethral strcitures
- Bulbar urethral necrosis

2014

- Bulbar urethral ischemic necrosis
- Management of female urethral trauma

2015:

- How diminished cavernosal arterial blood flow affects the success of anastomotic urethroplasty after pelvic fracture urethral injury
- Laparoscopic omentoplasty to support anastomotic urethroplasty in complex and redo pelvic fracture urethral defect patients
- Pedicle preputial tube for pelvic fracture urethral defect and ischemic bulbar urethra
- Double transection with injury at membranobulbar and prostate bladder neck after pelvic fracture urethral injury.

2016:

- A novel use of methylene blue in anterior urethroplasty
- A new laparoscopic minimally invasive technique of transposing omentum to perineum for recto urethral fistula.
- Do circumferential free grafts work in urethral reconstruction: a desperation urethroplasty
- A new retractor for hypospadias repair and penile urethroplasty      methylene blue
- Spongigraphy-a novel intraoperative test for decision making in short bulbar strictures

SIU2011:

- Endoscopic realignment for obliterative stenosis of the posterior urethra following surgery for benign enlargement of the prostate
- Transpubic double anastomotic
- Urethroplasty for exclusion of the prostatic urethra due to trauma: SIU

2014:

- Management of female urethral trauma
- Bulbar urethral ischemic necrosis

SIU 2015:

- Use of methylene blue in anterior urethroplasty
- Methylene blue Spongiosography for short bulbar strictures
- **Laparoscopic Omentoplasty** in Patients with Concurrent Pelvic Fracture Urethral Injury and Recto Urethral Fistula.
- Laparoscopic Omentoplasty to support Anastomotic urethroplasty in complex and redo pelvic fracture urethral defects

London 2014:

- Management of bulbar urethral ischemia and necrosis after failed urethroplasty for PFUDD
- Management of Panurethral stricture

USI:

2011: A geographic analysis of male urethral stricture etiology and location.

2012: Management of pan-urethral stricture by single stage, one side dissection, dorsal onlay technique.

2013: Factors affecting failure in anastomotic urethroplasty for PFUDD.

2014:

Double face buccal mucosa augmentation urethroplasty (dorsal inlay with ventral onlay) for obliterative bulbar strictures

Insight in to results of anastomotic urethroplasty in primary and redo cases of pelvic fracture urethral injury.

2015:

- Management of bulbar urethral ischemia and necrosis with long gaps after failed urethroplasty for PFUDD
- Most effective technique of using buccal graft in staged urethroplasty for hypospadias cripple

2016:

Are urologists getting french-fried? discrepancy between the label advertised and actual sizes of endoscopic urological materials
